

SCIEX Triple Quad™ 3500 LC-MS/MS System

Legendary power, accuracy and flexibility. All within your technology budget.

What Else Can I Do with an LC-MS /MS for Environmental Testing?

Accurately Detect and Quantify Your Molecules

Accurately Detect and Quantify Your Molecules With Precision Mass Spectrometry Tailored to Your Needs

Quantitation of Terpenes in Cannabis Products Using the Triple Quad 3500 LC-MS/MS System

Figure 1. Structures of some terpenes relevant to the production of cannabis products shown with a sample chromatogram from this method. Resolution of isomers was critical to the success of this application.

Can LC-MS/MS Be Used in Horse Meat Detection?

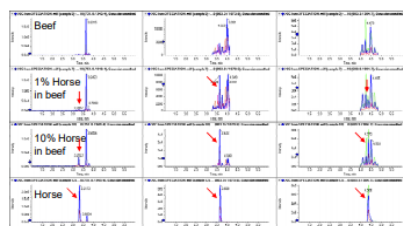

Figure 4. Detection of peptides characteristic for horse meat in beef at different levels, it shows that horse meat can be detected at a 1% level

The Detection of Allergens in Bread and Pasta by Liquid Chromatography Tandem Mass Spectrometry

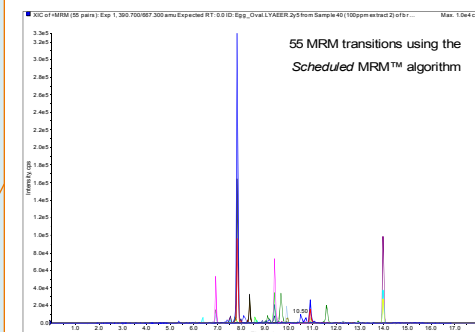

Figure 2. Scheduled MRM™ algorithm screen for peanut, milk, egg and wheat allergens in a bread sample spiked with 100 ppm milk and egg proteins

Analysis of Pesticides in Food Samples Using the SCIEX Triple Quad 3500 System

Figure 2. Sensitivity comparison of a 10 ng/mL standard analyzed using the API 3200 System (top) and SCIEX Triple Quad 3500 System (bottom) with an average sensitivity gain of 3x

Quantitation and Identification of 13 Azo-dyes in Spices using LC-MS/MS

Figure 2. Detection of 13 selected azo-dyes in positive polarity

Take Your Traditional GC/MS and HPLC Methods to the Next Level

Powerful, modern hardware for ultimate reliability and productivity on a budget, with the SCIEX Triple Quad 3500 LC-MS/MS System

More MRMs per injection, space-saving design

Curved LINAC® collision cell

Evolution of the ion path – modernized to meet the demands of today’s analytical labs

The Triple Quad 3500 System takes the best features of the API 3200™ System and enhances them with modern engineering and electronics.

What’s keeping with tradition?

The robustness and ruggedness you expect from SCIEX instruments featuring the legacy Turbo V™ source and Curtain Gas™ interface.

The Revolutionary Turbo V Source

It has underpinned academic research discoveries, pharmaceutical development, forensic investigations, clinical workflows and testing to ensure our food is safe to eat and water is safe to drink.

Adaptable to the demands of your workflows, the Turbo V Source features both Electrospray Ionization (ESI) and Atmospheric Pressure Chemical Ionization (APCI).
