

Simplify CE analysis!

SCIEX offers simplicity and ease of use with ready-to-run, pre-assembled EZ cartridges for the BioPhase 8800 and PA 800 Plus systems.

- Precision-cut tips ensure uniformity of injection from capillary to capillary with laser-trimmed ends
- Alignment precision at the window reduces risk of misalignment failure
- Reduce preparation time and operator variability with simplified analysis and training
- Increase repeatability and reproducibility from operator to operator, lab to lab and local site to global site
- Help make all users—from advanced analysts to the newest users—capillary cartridge experts
- Cartridges are quality control tested after assembly

Instrument	Part number	Item
BioPhase 8800 system	5080121	BFS capillary cartridge - 8 x 30 cm
BioPhase 8800 system	5080119	Neutral capillary cartridge - 8 x 30 cm
PA 800 Plus system	A55625	Pre-assembled capillary cartridge (bare-fused silica)
