

Syllabus for Success Virtual

At SCIEX, our personalized Success Programs follows the proven spaced learning approach of learning. The training process includes a unique blend of self-paced online courses and live virtual training.

Course goals and outcome

This training program is a personalized program based on the primary learner's instrument, software and workflow.

This program is recommended for learners that have significant operational experience with SCIEX LC-MS systems, and are looking to learn more about a specific piece of software or additional operations information related to their SCIEX LC-MS system.

The Applications Scientist will assign appropriate online eLearning courses in SCIEX Now Learning Hub based on your needs. Personalized live on-line support will be provided to reinforce content, answer questions and provide additional information not covered in the eLearning material.

Training program overview

Your training program includes the following:

- 2 sessions for a total of 3 hours of live online training by an Applications Scientist
- Access to SCIEX Now Learning Hub database of >100 eLearning courses
- Access to SCIEX Now online support tools available for up to 3 learners
- Provided for 1 primary learner to participate and up to 2 additional learners to join for observation and content
