

Metabolomics Symposium 2018

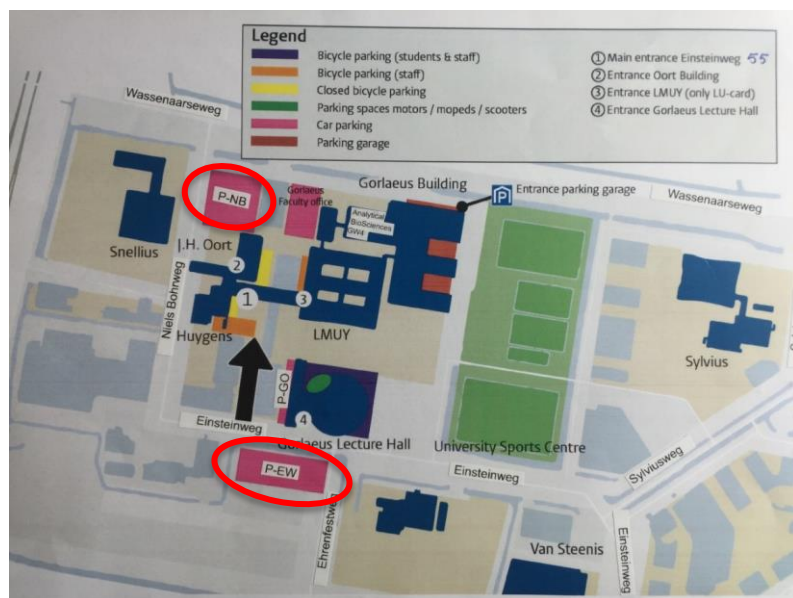

—

Applications in Clinical Research and Life Sciences

Event location

Leiden Academic Centre for Drug Research (LACDR)
Room EM1.09, in new Gorlaeus Labs building (see below)
Einsteinweg 55
2333 CC Leiden

Direction to the room EM 1.09

The Gorlaeus Labs have a new official entrance (① on the map, black arrow), called Einsteinweg 55.

Metabolomics Symposium 2018

—

Applications in Clinical Research and Life Sciences

The new entrance is in the Huygens building:

Do not use the former main entrance (④, “old” Gorlaeus building).

Upon the entrance, you will see the main reception on the left. Take the stairs on your right up to the first floor and follow the signs. You will walk through the LMUY building (③) until you reach the new Gorlaeus building. Once you have arrived in the new Gorlaeus building, the room EM 1.09 is located in front of you, slightly on the left. The registration desk is located next to the room.

It will take you around 7 minutes walking time to reach the room from the main entrance.

Parking

Two parking places are available, **P-EW via Ehrenfestweg** or **P-NB via Wassenaarseweg/Niels Bohrweg** (see map-they are circled in red). You will need to mention that you are coming for the Metabolomics Symposium to be able to enter the parking.
