

SCIEXUniversity Learning Path Snapshot

Advanced LC-MS Quantitation Troubleshooting

For Experienced Users: TRNSU200

This course provides a variety of hands-on troubleshooting exercises and best practices, and finishes with a Troubleshooting Challenge. It is intended for those who have completed a SCIEXUniversity Success Program or have significant operational experience with SCIEX LC-MS systems. The program includes a blend of self-paced online courses and 2 days of instructor-led training at your site.

You will Learn:

1. How to tune and calibrate your mass spec
2. How to perform HPLC and MS maintenance
3. Strategies for troubleshooting common HPLC and MS issues
4. To understand quantitation parameters
5. How to use outlier settings and metric plots to identify issues with your data results
